Product short description:

The **Supplementary Hoop** is ideal to **cover** the roof cut holes that have been left with a \varnothing greater than the cut of the focus, so you will not lose the design of your space. It is **white** and is an ideal accessory for **downlights**:

Extra Slim LED Downlight LED Spotlights
Downlight

Product description:

Supplementary Hoop Cover for Downlight

Hoop with an elegant design, it is recommended to use it for plates or downlight slim, **covering** a gap larger than what can **cover** the focus. Its measures are:
- Inside cut: ø208mm
- Outer cut: ø255mm

This product allows you to cover the gaps that have become too large for the plate or downlight, thus roof cuts up to ø255mm are covered with the ring.

It is perfect for a new construction site. It has IP20 protection, making it ideal for indoor use.

Uses for Supplementary Hoop Cover for Downlight

- Domestic
- Professional
