- Forged Oxiron: Similar to RAL7043
- Brown Oxiron: Similar to RAL8007

Manufacturing time is 5 to 7 working days.

Product description:

Column Urban Circular 3 meters

Elevate your spaces with the exquisite Urban Circular Column, which rises majestically to an imposing height of 3 meters. Crafted with high-quality steel, this column seamlessly combines strength and style to redefine your environment.

- Modern Design: Embrace the contemporary appeal of our Urban Circular Staff, a harmonious fusion of form and function that enhances urban landscapes.
- Manufacturing Mastery: Meticulously built with top-quality steel, this column boasts durability and longevity, ensuring it will stand firm against the passage of time and the elements.
- Striking Elegance: With an impressive height of 3 meters, this lighting pole radiates a solid presence, making a bold statement in any setting, from bustling city streets to tranquil parks.
- Easy Installation: Designed for uncomplicated assembly, the Urban Circular Column includes all the necessary elements to facilitate the installation process and save you valuable time.

Its finishing is perfect for attaching lanterns, an electric access door at the approved height, and a fuse box holding plate. It includes a template of anchors measuring 200 x 200 between centers and M-16 bolts.

Finished with oven-baked polyester paint: In stock in Glossy Black RAL9005.

The lantern can be delivered painted in the color desired by the customer:

- Textured Black: Similar to RAL9005
- Pearl Gray: RAL9006
- Forge Oxiron: Similar to RAL7043
- Brown Oxiron: Similar to RAL8007

Uses of the 3-meter Urban Circular Column:

- Streets and Avenues: These columns can beautify and provide illumination to the streets and avenues of the city, enhancing visibility and aesthetics in urban areas.
- Parks and Squares: In parks and squares, the columns provide ambient lighting and enhance security, creating a more welcoming and safe environment at night.
- Commercial Areas: In commercial zones, these columns add an elegant and modern touch, highlighting architecture and drawing attention to businesses and shops.
- Pedestrian Areas: In pedestrian streets and walkways, these columns can provide functional and decorative lighting, improving the pedestrian experience.
- Parking Lots: In parking lots and parking areas, the columns can efficiently and safely illuminate, aiding visibility and driver orientation.
- Event and Recreation Centers: In places such as outdoor event centers or sports facilities, the columns can offer appropriate lighting for nighttime activities and events.
- Urban Centers and Historic Districts: In urban areas and historic districts, these columns can complement the surrounding architecture while adding functional lighting.
- Residential and Community Complexes: In residential and community complexes, the columns can provide lighting in common areas such as entrances, paths, and recreational zones.
- Business Centers and Offices: In business areas and offices, these columns can enhance the corporate image and the aesthetics of the environment.
- Landscaping Projects: In landscaping and urban design projects, the columns can be design elements that highlight the beauty of outdoor spaces.
