

LED Dimmer WiFi Smart - TRIAC System

Product code:

Reference: IWDM90502

Technical specifications:

REFERENCE: IWDM90502
Rated Power : Max: 150w (LED)
Nominal Voltage: 220-240V
Dimmable: TRIAC
Certifications: CE - ROHS
IP : IP20
Dimensions (mm): 46x46x18mm
Temperature Range (°C): -10° ~ 40°

Product short description:

The **Smart Controller TRIAC** is the ideal and easy solution to control and automate your shop and your home, as it allows you to control the LED lights in your home very easily thanks to the **IWIK and/or TUYA SMART app**. Our smart wifi controller can support up to 150w LED. Compatible with **GOOGLE HOME and ALEXA**.

Product description:

LED Dimmer WiFi Smart - TRIAC System

The **Smart Regulator** is the ideal solution for controlling and automating your home, as it allows you to switch your LED lamps on and off as well as to regulate their intensity remotely, adapting the luminosity of the room according to the occasion. With a single regulator you can control up to 150w of power.

In addition, it allows you to program routines from the application to modify the level of brightness automatically at the indicated time, as well as to turn the light on or off. It is a **remote control** through the IWIK app and/or TUYA SMART from your Android SmartPhone or iOS by **WiFi**, fully compatible with **Google Home or Alexa** so that you can control it by voice.

The Smart Controller has a small size and its installation is very simple, it is powered by **220V AC**. It has a working range of 200 meters (without obstacles), so we can control any room in your home within this range.

Transform your shop or home into a smart one thanks to the Smart WiFi products that you can find on our website, follow the link:SMART PRODUCTS

In FactorLED we assure that our products have guarantee of **QUALITY** and offer all the necessary elements for the **DISTRIBUTION, IMPORT or WHOLESALE**, including the technical card of each LED product
