### Product description:

#### 24W - 22W- 20W -18W LED Ceiling Light Surface Motion Detector - 2700K+CCT - OSRAM CHIP

The **Ceiling Light CCT** with **MOVEMENT SENSOR** is made of aluminum + PMMA. With a white finish and a power of **20W** it is a product especially for passage areas. It has **range of 6 meters** and a detection time of 30 seconds. The sensor is activated whenever it detects movement.

Thanks to its **detector of luminosity**, it is able to be put in operation as soon as it is necessary its ignition, that is to say, when the natural light begins to turn off this Plafón of surface detects it and begins its operation. The detector also allows 3 time settings: 15 seconds - 45 seconds - 5 minutes.

Inside it includes high brightness **OSRAM Chip** LED diodes to achieve quality lighting, thanks to its great resistance the spotlight has a greater durability reaching 100,000 switching cycles while achieving great **energy savings** on your electricity bills.

This product has an **IP20** protection, so it is a product for indoor use. With its primary angle of **120°** a uniform light is obtained in any space, creating a uniform environment.
