Product description:

DARK Concrete Pendant Lamp - Industrial style - E14

Industrial and modern lighting for any space

The **concrete pendant lamp**, **industrial** style, **E14** socket and gray color is an industrial and modern option for any interior space. Its simple and minimalist design adapts to any style of decoration, from classic to modern. This type of **secondary light**, is special to give a decorative touch to professional spaces to give an attractive and **pleasant** touch.

This luminaire is made of high quality concrete material, with a gray finish that gives it a modern and sophisticated look. The suspension cable is adjustable, up to a maximum of 145cm, so you can adapt the height of the lamp to your needs.

The **lamp** supports bulbs with **E14** socket, so you can choose the one that best suits your lighting needs. LED bulbs are an ideal choice, as they are energy efficient and produce a warm, pleasant light.

LED lighting elements such as the **DARK pendant lamp** allow us to create cozy spaces that give life to every corner of the room. We can use it alone or combine several lamps at **different heights**, creating a very attractive set visually.

Its unique design and solid construction make it a durable and sturdy piece that can provide illumination and style for many years to come. The advantages of using concrete in lighting:

1. Concrete is a tough and durable material, which means concrete pendant lights have a long life span and can withstand daily wear and tear.
2. Concrete has a unique texture and appearance that can add an industrial touch to the decor of a space. Concrete pendant lights for LED lighting have a unique aesthetic that can make a design statement.
3. Concrete pendant lights for LED lighting can be customized with different finishes, such as pigments, textures and patterns, to suit any decor style. It is a material that allows you to easily customize it, or paint it to your liking.

*** Bulb NOT INCLUDED**
