

## Two Arm Steel Crosshead - Galvanized Steel

### Product code:

Reference: CRUCETA2B-GV

### Technical specifications:

REFERENCE: CRUCETA2B

Construction Material: Steel

Certifications: CE - ROHS

Dimensions (mm): 2x500XH300mm

Other Information: ØHole Tube 60-64

Warranty Years: 2

### Product short description:

Tired of having streetlights that don't provide enough illumination? Fed up with constantly having to replace light fixtures? We have the perfect solution for you! Our galvanized steel crossbar is designed to support two LED luminaires, providing optimal lighting on streets, roads, and public squares. Quick and easy installation!

**Manufacturing time is 5 to 7 working days.**

### Product description:

Two Arm Steel Crosshead - Galvanized Steel

The Two-Arm Steel Crossbar is a lighting support specifically designed to be installed on streetlights or lamp posts, allowing for safe and efficient installation of LED luminaires. Made of high-quality galvanized steel, this crossbar offers exceptional strength and durability, making it ideal for use in outdoor areas exposed to the elements and weather.

Its two-arm design allows for optimal distribution of light in different directions, making it an excellent choice for illuminating streets, highways, parks, plazas, and other public areas. Additionally, its easy installation and maintenance make it a practical and cost-effective solution for outdoor lighting.

This crossbar is compatible with a wide variety of LED luminaires, allowing for greater flexibility and customization in selecting the appropriate lighting for each project. Additionally, its galvanized finish provides excellent protection against corrosion and rust, ensuring a long service life and minimal maintenance.

In summary, if you are looking for a robust and versatile solution for outdoor LED lighting, the Two-Arm Steel Crossbar is an excellent choice that meets the highest standards of quality and safety. With its easy installation, compatibility with different luminaires, and great durability, this crossbar is an intelligent investment that will provide you with efficient and long-lasting lighting for many years.

**Manufacturing time is 5 to 7 working days.**

Uses of the Two-Arm Steel Crossbar:

- Poles
- Columns
- Lamp posts
- Ideal for parking lots, roundabouts, streets, plazas, and more...

At FactorLED, we are committed to ensuring that our products are of the highest quality and offer the necessary elements for DISTRIBUTION, IMPORTATION, or WHOLESALE sales, including the technical specifications of each LED product.
