Product short description:

Do you want to give your commercial space a unique and sophisticated look? Introducing the innovative **3D InfinityLED Effect Frame**, the perfect complement to the **3D InfinityLED Commercial Floor**.

Designed with premium materials and oven-painted in black, this steel metal frame not only provides stability but also adds a touch of modernity and elegance to your environment.

Product description:

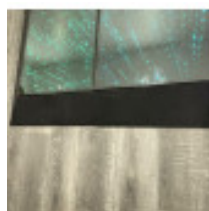

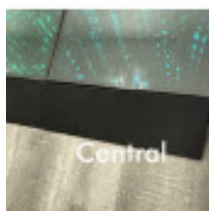

Central Frame - 3D InfinityLED Commercial Floor

Enhance your commercial space with the innovative **Central Frame 3D InfinityLED**, the perfect complement to the 3D InfinityLED Commercial Floor. Crafted with premium materials and an elegant black finish thanks to its oven-baked painting, this metal frame not only ensures stability but also adds a touch of cutting-edge design and distinction to your environment.

Benefits of our frame for the 3D commercial floor:

- Functional solution: Forget about worries regarding unevenness in your commercial floor. The Central Frame 3D InfinityLED is specifically designed to overcome such irregularities and provide a perfectly level surface.
- Impressive style: With its black finish, this metal frame stands out for its aesthetic appeal and becomes a decorative element in itself. It seamlessly blends with any interior design and brings a contemporary touch to your space.
- Exceptional durability: Manufactured with sturdy materials and subjected to an oven-baked painting process, the Central Frame 3D InfinityLED ensures a long lifespan without compromising its elegance over time.
- Easy installation: Save time and effort with the straightforward installation of our frame. You can have your space renovated in a matter of minutes.
- Perfect complement: Designed to be the ideal companion to the 3D InfinityLED Commercial Floor, together, they create an impressive visual effect that will draw the attention of customers and visitors.
