

Initial cover LED strip - 10mm - 12mm

Product code:

Reference: KIT91023

Technical specifications:

REFERENCE: KIT91024
Construction Material: Silicone
Certifications: CE - ROHS
IP : IP65-Outdoor
Warranty Years: 3

Product short description:

initial SILICONE covers for connecting LED strips to 10mm - 12mm PCB. Resists temperatures from -55°C up to 160°C. Aging resistance and weather resistance. Precision-manufactured using high-quality silicone, these covers are designed to withstand the elements and shine in any outdoor environment. The silicone not only provides exceptional protection against wear and weather, but also ensures a hermetic seal to keep your LED strip in perfect condition if you apply our special Kafuter adhesive.

Product description:

Initial Cover for LED Strip - 10mm

Discover the perfect finishing touch for your lighting projects with our innovative Kit of Initial Covers for 10mm LED Strips. Meticulously designed to exceed your expectations, this set of 10 units is ready to take the magic of light to a new level.

Each initial cover is a masterpiece of durability and style. Precision-manufactured using high-quality silicone, these covers are designed to bravely face the elements and dazzle in any outdoor environment. The silicone not only provides exceptional protection against wear and weather, but also guarantees a hermetic seal to keep your LED strip in perfect condition.

The 10mm size fits your LED strips perfectly, ensuring a seamless appearance and optimal performance. These final covers are incredibly easy to install, allowing you to focus on creativity rather than technical complications. Simply snap them in place and enjoy the security and beauty they bring to your project.

Whether you're beautifying your garden, enhancing your façade, or creating a magical corner in your patio, this Kit of Initial Covers for 10mm LED Strips is the ultimate choice. Illuminate your world with confidence and style.

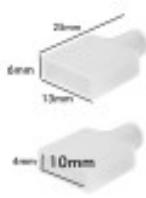

OUTDOOR USE:

With our initial cover and using our special Kafuter adhesive, you'll be able to connect all types of LED strips, making them IP65-rated to protect them for outdoor use.

Get your kit today and ignite your creativity!

In FactorLED, we ensure that our products come with a guarantee of **QUALITY** and provide all the necessary elements for **DISTRIBUTION**, **IMPORTATION**, or **WHOLESALE**, including the technical data sheet for each LED product.
