LED Strip 24V | 60xLED/m | 10m | SMD2025 | 30º | 10W/M | IP20 | CRI90

Product code:

Reference: SPSMD60D-10W

Technical specifications:

REFERENCE: SPSMD60D-10W
Rated Power : 10W/M
Nominal Voltage: 24V DC
Colour: 2700K - 4000K - 5700K
CRI - Chromatic Rendiment Index: 90
Luminosity-Lm: 800 Lm/ M
Number & Type of LEDs: SMD2025**************
Beam Angle (º): 30º
Luminous Efficiency (Lm/W): 80Lm/W
Certifications: CE - ROHS
IP : IP20
Dimensions (mm): L 10m x 8mm
Frequency (Hz): 50/60Hz
Temperature Range (ºC): -25ºC ~ 60ºC
Other Information: Cut: **************cm
Energy Rating (2021-UE-2019/2015): A+
Energy Rating (2023 - UE-2019/2015): F
Warranty Years: 3

Product short description:

Discover the power and versatility of our **10 meter** LED Strip! With **60 LEDs per meter**, this strip offers bright and uniform illumination. Its high quality **SMD2025** design and **30 degree** opening angle ensure optimal light dispersion. In addition, its energy efficiency of 10W per meter makes it a sustainable choice. With a color rendering index **(CRI) of 90**, colors are displayed accurately and vibrantly. This strip is ideal for creating cozy indoor environments, with **IP20** protection.

5 YEARS WARRANTY. 24 HOURS OF USE.

Product description:

LED Strip 24V | 60xLED/m | 10m | SMD2025 | 30° | 10W/M | IP20 | CRI90 High Performance LED Strip for Exceptional Illumination

- **Power and Efficiency:** 10m 24V LED Strip is a powerful and efficient light source. With a density of 60 LEDs per meter, it ensures bright and uniform illumination at all times.
- **Latest Generation SMD2025 Technology:** This strip incorporates advanced SMD2025 technology, which means higher luminous efficiency and extended lifetime. The surface mount LEDs provide more uniform light distribution and longer durability.
- **Specialized Aperture Angle:** With a narrow aperture angle of 30 degrees, this LED strip directs light in a precise and focused manner. It is perfect for applications that require spot and detailed illumination, such as accenting artwork or highlighting architectural elements.
- **Energy Efficient 10W per Meter:** Designed to be sustainable, this LED strip consumes only 10 watts per meter. This not only reduces energy consumption, but also lowers long-term operating costs, making it an environmentally friendly and economical choice.
- **IP20 Indoor Protection:** IP20 protection rating ensures this LED strip is suitable for indoor spaces, providing excellent illumination without compromising safety. Ideal for applications in living rooms, bedrooms, offices and similar spaces.
- **Color Rendering Index (CRI) of 90:** With a CRI of 90, this LED strip ensures accurate color rendering. Illuminated objects will appear sharp and vibrant, which is essential for applications where color quality is critical, such as photo studios or showrooms.

Customized and Sophisticated Lighting with 10 Meter LED Strips

Discover a new dimension of lighting with this high quality LED strip. Its combination of advanced technology, energy efficiency and specialized design makes it the perfect choice for projects that require exceptionally precise and detailed lighting. Harness the power of this LED strip to create captivating environments and highlight the finest details. Elevate your lighting experience with the 10m LED Strip!

FactorLED ensures that our products are QUALITY guaranteed and offers all the necessary elements for DISTRIBUTION, IMPORT or WHOLESALE, including the technical data sheet of each LED product.
