

## KIT Silicone Glue + Connector Cable for COB + SMD LED Strips - 8mm - 10mm - IP65

### Product code:

Reference: WIP65

### Technical specifications:

REFERENCE: 92067-92069  
Construction Material: Silicone  
Certifications: CE - ROHS  
IP : IP65-Outdoor  
Warranty Years: 3

### Product short description:

Complete kit for connecting LED strips on 10mm and 12mm. Includes a 20cm connector cable with pressure connection for easy and secure power supply. Additionally, a special adhesive and sealing silicone bar is provided, specifically designed for fixing and protecting LED strips. The kit also includes an end cap to ensure a professional and durable installation.

### Product description:

KIT Silicone Glue + Connector Cable for COB + SMD LED Strips - 10mm - 12mm - IP65

With our kit you can connect all types of 10mm and 12mm LED strips with IP65 and protect them in outdoor use.

The complete kit for connecting LED strips to 10mm and 12mm is a comprehensive and reliable solution for LED lighting projects. This kit has been meticulously designed to ensure easy, safe and high quality installation of LED strips in a variety of applications.

#### The waterproof LED strip kit consists of:

- Cable with 20cm connector with snap connection.
- End cap.
- Special silicone pot for LED strips.

Our silicone adhesive and sealant is specially designed for fixing electronic equipment and LED strips.

Our silicone is neutral, does not contain alcohol in its composition, is resistant to humidity and has a semi-rigid texture.

It withstands temperatures from -55°C to 160°C.

Resistant to ageing and weathering.

Flexible and stable in the long term.

Complies with RoHS environmental requirements.

Can be used in machinery, electronics, chemical, hardware industries.

This kit is especially suitable for 220V IP65 LED strips made of Silicone or PVC, with a width of 10mm (PCB 8mm) or 12mm (PCB 10mm).

Our silicone does not cause corrosion on the plastic.

#### Advantages of the kit:

- Facilitates the installation of LED strips, even for those with no previous lighting experience.
- Provides a secure and durable connection, ensuring optimum performance over time.
- Protects LED strips against the elements, prolonging their life and maintaining their brightness and lighting quality.

# Technical Datasheet

At FactorLED we ensure that our products are guaranteed QUALITY and offer all the necessary elements for DISTRIBUTION, IMPORT or WHOLESALE, including the technical data sheet of each LED product.
