

KIT Connectors for COB + SMD + Screwdriver LED Strips - 10mm - IP20

Product code:

Reference: 91902-10MM

Technical specifications:

REFERENCE: 91894-10mm
Construction Material: PC
Certifications: CE - ROHS
IP : IP20
Dimensions (mm): 10mm
Warranty Years: 3

Product short description:

Optimise your lighting projects with our 10mm LED strip connector kit. Includes 3 pcs Strip to Wire, 1 pcs L/T Shape, 1 pcs Strip to Strip Joint, and a screwdriver for easy installation. Ideal for COB and SMD LED strips, it offers versatility and a secure connection for a flawless lighting design. Perfect for indoor use with IP20 resistance.

Product description:

KIT Connectors for COB + SMD + Screwdriver LED Strips - 10mm - IP20

Discover the ultimate solution for your lighting projects with our exclusive LED strip connectors! This complete kit is designed for easy installation and customisation of your LED strips, giving you maximum versatility and efficiency.

Product Features:

- Full Compatibility: Compatible with COB and 10mm SMD LED strips, ensuring seamless and hassle-free integration.
- Premium Connectors: The kit includes 3 pcs Strip to Wire, allowing you to connect your LED strips safely and quickly.
- Versatile Connections: 1 pcs L/T Shape for corners and complex shapes, and 1 pcs Strip to Strip Joint for a direct and clean connection between strips.
- Tools Included: Comes with 1 pcs Screw Driver, making assembly easy and ensuring effortless installation.
- IP20 Resistance: Ideal for indoor use, protecting your connections against dust and accidental contact.

Benefits:

- Easy Installation: You don't need to be an expert to install your LED strips. With our kit, the process is intuitive and simple.
- Design Flexibility: Different connector shapes allow you to create customised lighting designs to suit any space.
- Guaranteed Quality: Durable, high quality materials ensure a stable and secure connection over time.
