# Dimmer for LED Push Button - TRIAC - RF + Push Dimmer

## Product code:

Reference: 92065-TRI-C1

## Technical specifications:

REFERENCE:
Rated Power : LED Max.300W
Nominal Voltage:
Construction Material: Aluminiun+PC
Dimmable:
Certifications: CE
IP : IP20
Dimensions (mm): 47x47x14mm
Frequency (Hz): 50/60Hz
Temperature Range (ºC): -10ºC ~ +40ºC
Other Information: Protección Contra sobrecarga y protección térmica
Warranty Years: 3
Range (m):

## Product short description:

The TRIAC - RF + Push Dimmer is the ultimate solution for those looking for precise, flexible and efficient control of LED lighting. Enhance the atmosphere of any space with the ease of use and reliability that only this dimmer can offer.

Ideal for use in homes, offices, restaurants, hotels and anywhere else where efficient and aesthetically pleasing LED lighting control is required. Its sleek and unobtrusive design makes it a perfect solution for both residential and commercial applications.

## Product description:

LED Pill Button Dimmer - TRIAC - RF + Push Dimmer

Discover the latest advancement in LED lighting control technology with our innovative LED Pill Button Dimmer. Designed to offer precise and efficient control of light intensity, this device combines several cutting-edge technologies to ensure an exceptional user experience.

Key Features:

1. **Universal Compatibility:** Designed to work with a wide variety of LED lights, this dimmer is compatible with most LED lamps and lighting systems on the market, ensuring seamless integration into any environment.

2. **TRIAC Technology:** Equipped with an advanced TRIAC controller, this dimmer provides smooth and continuous adjustment of light intensity, eliminating flicker and ensuring a comfortable and stable lighting experience.

3. **Dual Control - RF and Push Dimmer:** Offers two control methods for greater convenience and flexibility. The radio frequency (RF) remote control allows you to adjust the lighting from anywhere in the room, while the Push Dimmer function provides direct touch control via a pill button, ideal for quick and precise adjustments.

4. **Easy Installation and Setup:** Designed for easy installation, the dimmer integrates effortlessly into existing electrical systems without the need for complex modifications. Its intuitive setup allows for quick and hassle-free commissioning.

5. **Energy Savings:** Optimizes energy consumption by allowing precise control of LED light intensity, contributing to lower electricity bills and environmental sustainability.

6. **Durability and Reliability:** Made with high-quality materials and advanced technology, this dimmer ensures long-lasting performance and reliable operation, even under intensive use.
