

LED Controller - Dual Mini RF - Monochrome + CCT - 2.4GHz - 12-24V

Product code:

Reference: 92054-FUT035S

Technical specifications:

REFERENCE:
Rated Power : 12V: 144W - 24V-288W
Nominal Voltage: DC 12-24V
Colour: CCT -2000K to 7000K
Construction Material: Thermoplastic
Certifications: CE - ROHS
IP : IP20
Dimensions (mm): 17x36x74.5 mm
Frequency (Hz): 2.4Ghz
Warranty Years: 3
Range (m): 30m

Product short description:

Discover the 2-in-1 Controller for LED strips. Designed for monochrome and CCT (dual white) strips, this 2.4 GHz RF dimmer allows you to adjust brightness and program dynamic effects, creating unique environments. With the ability to control up to 4 different zones from a single remote control from our catalog and a range of 30 meters. Simply connect the strip to the controller, add the power adapter, and assign the desired zone.

With an output power of 6A per channel and a maximum total of 12A, this controller is ideal for any space. Transform your LED lighting and enjoy total control over your environments!

Product description:

LED Controller - Dual Mini RF - Monochrome + CCT - 2.4GHz - 12-24V

Optimise the lighting of your spaces with the CCT Dual Mini RF 2.4G CCT Controller, a compact and efficient device designed to offer precise control of bi-colour LED (CCT) lights. This controller allows you to adjust the colour temperature, smoothly transitioning from warm white to cool white, creating the perfect ambience for any occasion.

Main features:

2.4G RF Technology: Interference-free remote control with extended operating range and stable signal.

CCT compatibility: Precise colour temperature adjustment (warm white to cool white) to customise the ambience.

Compact design: Small size for easy installation in limited and unobtrusive spaces.

Easy to use: Intuitive interface for simple and convenient operation.

Secure connectivity: Reliable wireless operation, ideal for residential and commercial applications.
