

## LED CCT 12-24V Controller Pack + B2 Remote Control - 2.4GHz

### Product code:

Reference: PACK-E2-RF-B2

#### Technical specifications:

REFERENCE: PACK-E2-RF-B2

Nominal Voltage: E3-RF: 12-24V - B2: 3V

Colour: Monicolor - CCT

Dimensions (mm): E3-RF: 100 x 40 x H17,6mm B2: 86 x 86 x 33mm

Frequency (Hz):

Temperature Range (°C):

Range (m):

#### Product short description:

**The Monicolor - Bicolor CCT 2.4GHz (12-24V) 4 Zone Controller Pack + B2 RF (2.4GHz)** Remote Control Panel offers a versatile solution for your lighting needs. You can switch between two output modes: single color and dual white. The RF remote control panel allows you to turn lights on and off, adjust brightness, and control the color temperature in up to four zones. Its easy magnetic installation ensures quick and hassle-free setup. Additionally, it provides a control range of up to 30 meters, allowing you to manage your lighting devices from a considerable distance.

#### Product description:

LED CCT 12-24V Controller Pack + B2 Remote Control - 2.4GHz

The Monicolor - Bicolor CCT Controller Pack 2.4GHz (12-24V) 4 Zones + B2 RF Remote Control Panel (2.4GHz) is an advanced and versatile solution designed to meet all your lighting needs. This set includes a controller that allows you to easily switch between two output modes: single color and dual white, providing total customization of the lighting in your home or workplace. Below are its main features and possible uses and applications.

#### Main Features

##### Dual Output Modes:

- **Single Color:** Perfect for environments that require constant and uniform lighting.
- **Dual White:** Ideal for adapting to different CCT color systems, from warm white to cool white.

##### RF Remote Control:

- The RF remote control panel allows you to turn the lights on and off, adjust brightness, and control color temperature in up to four different zones.
- 2.4G RF wireless transmission technology ensures a stable and long-range connection.

##### Programmable Zone Management:

- Capable of managing up to 4 individually programmable zones, allowing independent control of different areas or rooms.
- Customize the lighting according to the specifications and needs of each space.

##### Extended Control Range:

- Provides a control range of up to 30 meters, allowing you to manage your lighting devices from a considerable distance.

##### Magnetic Installation:

- Magnetic installation facilitates quick and hassle-free mounting, eliminating the need for wiring.
- The magnetic support ensures that the panel stays firmly in place, ensuring a clean and tidy installation.

##### Advanced Technology:

- Equipped with a high-precision capacitive touch IC, ensuring a sensitive and precise response to touch.
- Compatible with the MiBoxer/Mi-Light 2.4G series, allowing integration with other devices in the same series.

##### Brightness and Color Temperature Adjustments:

- Allows you to adjust both brightness and color temperature to create the perfect ambiance at any time.

# Technical Datasheet

## Applications and Uses:

- This pack is ideal for a variety of applications in both residential and commercial settings. It is perfect for those seeking a versatile and efficient lighting solution that allows detailed control and complete customization. Whether creating a cozy atmosphere at home, effectively lighting work areas, or managing lighting in large spaces like event halls or stores, the Monocolor - Bicolor CCT Controller Pack 2.4GHz (12-24V) 4 Zones + RF Remote Control (2.4GHz) provides a complete and reliable solution for all your lighting needs.

Transform your space with this advanced lighting control system and enjoy a lighting experience tailored to your needs and preferences.
