Product description:

Triple tiltable frame - Oculus Series - GU10-MR16 - Black exterior

The Luxury Tiltable Frame for GU10-MR16 lamps is the perfect choice for those who want to blend design, functionality, and customization in their lighting system. Its minimalist and elegant design makes it ideal for creating sophisticated and modern environments in any space.

Features and Customization: This GU10 tiltable frame allows you to customize the color of the inner rings, available in white, black, silver, gold, or matte black, making it easy to tailor the lighting to your style and needs. This flexibility makes it an excellent choice for both residential and commercial projects, adding a touch of luxury and exclusivity. Its refined design ensures a flawless and professional finish without compromising aesthetics.

Functionality and Versatility: Beyond its appearance, this frame stands out for its high functionality, allowing you to adjust the light beam angle according to the needs of the space. This tilting feature is ideal for focusing the lighting on specific areas or creating softer and more balanced lighting effects.

Quick and Easy Installation:

The frame is designed for recessed installation, offering a discreet and neat appearance on the ceiling. It only requires a cut in the surface to fit the frame in place. This process is quick and easy, making it an excellent option for both professional installers and DIY enthusiasts.

Applications and Uses:

This frame is very versatile in its use, finding applications in both residential and commercial environments. Some of the main spaces where it is used include:

- Kitchens and countertops: Ideal for illuminating workspaces, providing direct and clear light on surfaces.
- Bar or restaurant counters: Perfect for creating focused lighting that highlights the customer service area or creates a cozy atmosphere.
- Hallways and passageways: Provides elegant and functional lighting in passage areas, helping to guide the flow of people.
- Living rooms and common areas: Adds a touch of style to general lighting, allowing specific areas such as tables or meeting areas to stand out.
- Offices and retail spaces: Used to illuminate workspaces or highlight products in display cases, creating lighting that combines practicality and style.

GU10 lamp not included.

This tilt frame from the Oculus Series transforms the lighting in any space, bringing a touch of innovative and personalized design, without sacrificing efficiency and functionality.
