

Professional Power Supply - MOSO - 24V 350W - IP67 - 14.6A

Product code:

Reference: MOSO350W24V

Technical specifications:

REFERENCE: FAECOLED320W24V
Rated Power : 350W
Nominal Voltage: 175-265V
Construction Material: Flame retardant thermoplastic
Certifications: CE, CMIM, RoHS
IP : IP67-Outdoor
Diode Life Expectancy (H): 50.000
Power Factor (PF): 0,98
Frequency (Hz): 50/60Hz
Temperature Range (°C): -20°C ~ +55°C
On/Off Cycles: 100.000
Starting Time (s): 0,2s
Energy Rating (2021-UE-2019/2015): A++
Warranty Years: 5

Product short description:

Professional waterproof power supply (IP67) with max. 350W - 24V DC at 14.6A - ideal for high-demand projects. Provides reliable performance with a power factor of +97 and protection against surges of up to 10KV. Designed to operate 24/7 all year round, it ensures a stable power supply under any conditions. Additionally, it comes with a 5-year warranty, ensuring durability and peace of mind for your projects. Perfect for LED installations and other devices requiring an efficient and safe DC power source.

Product description:

Professional Power Supply - MOSO - 24V 350W - IP67 - 14.6A

The professional IP67 power supply from 24V DC to 14.6A (350W) is designed to deliver exceptional performance in applications requiring a stable and continuous power supply. Ideal for LED lighting projects, industrial systems, and other devices needing to convert alternating current (AC) to direct current (DC), this power supply ensures precise and reliable output.

With a power factor of +97, it maximizes energy efficiency, reducing electricity consumption and optimizing overall performance. Additionally, its surge protector of up to 10KV protects your equipment from potential voltage spikes, prolonging the lifespan of your devices.

This power supply is designed for continuous use, allowing uninterrupted operation 24 hours a day, 365 days a year, making it an ideal choice for high-demand installations. Its waterproof casing ensures resistance to dust, moisture, and adverse environmental conditions, guaranteeing durability and safety.

With a 5-year warranty, this power supply is synonymous with quality and reliability, ensuring that your projects are always backed by a long-lasting and high-performance product.

Although its uses are diverse, it is particularly employed in the installation of lighting systems with LED strips. This type of project requires a stable and efficient power supply, and this power supply guarantees optimal and long-lasting performance. Whether for decorative, architectural, or signage lighting, its ability to convert AC to DC with high energy efficiency, along with its resistance to adverse conditions, makes it the ideal choice for LED installations both indoors and outdoors.

At FactorLED we ensure that our products have a QUALITY guarantee and offer all the necessary elements for DISTRIBUTION, IMPORT or WHOLESALE, including the technical sheet of each LED product.
