

## Quick Connector 100 cm + Fixings + End Cap For EASY CONNECT Luminaire – 12 V – Custom Professional Solution

### Product code:

Reference: EC20W-19519

### Technical specifications:

REFERENCE: EC20W-19519  
Construction Material: PC  
Certifications: CE - ROHS  
IP : IP20  
Dimensions (mm): 1000  
Warranty Years: 3

### Product short description:

#### Quick Connector EASY CONNECT 100 cm + 2 Fixings + End Cap

This practical connection kit is designed to simplify the installation of **EASY CONNECT 12 V luminaires**, especially in custom projects that require a quick, safe, and hassle-free solution. With a single click, it allows you to connect your luminaires physically and electrically with ease – no tools or complex splicing required.

### Product description:

#### Quick Connector Kit EASY CONNECT 100 cm + 2 Fixings + End Cap – Clean and professional connection in seconds

This practical connection kit is designed to simplify the installation of **EASY CONNECT 12 V luminaires**, especially in custom projects requiring a quick, safe, and hassle-free solution. With a single click, it allows you to physically and electrically connect your luminaires easily, without the need for tools or complex splicing.

#### Includes everything needed for a perfect installation:

- **100 cm quick connector cable**, ideal for adapting to different lengths.
- **2 sturdy fixings**, ensuring a firm and professional mounting.
- **End cap**, to protect the end and achieve a clean and aesthetic finish.

Perfect for installers, electricians, or demanding DIY projects, this system guarantees a reliable, tidy, and efficient connection, even when the luminaire has been custom-cut.

#### Key advantages:

- Compatible with 12 V systems
- Tool-free installation
- Quick, safe, and error-free connection
- Ideal for custom-cut EASY CONNECT strips and luminaires
- Professional finish with included end cap

Optimize time, effort, and quality in every installation with this complete quick connection kit.
