

SUNLIGHT PRO200 LED Solar Street Light | SMD5050 160 Lm/W | Remote Control | 70°×140° | IP65

Product code:

Reference: SSL200-CW-91439

Technical specifications:

REFERENCE: SSL200-CW-91439
Colour: 6500K
Construction Material: Aluminium+PC
Luminosity-Lm: 1860,8Lm
Number & Type of LEDs: SMD 5050
Beam Angle (°): 70°X140°
Luminous diode LED (Lm/W): 160 Lm/w
Certifications: CE, CMIM, RoHS
IP : IP65-Outdoor
Diode Life Expectancy (H): 35.000
Temperature Range (°C): +40°C ~ -20°C
Starting Time (s): 0,2s
Other Information: Lithium Batery: 3.2V 20000mAh
Other Information: Solar Panel MonoCrystalline 6V 25W
Download Time: 8 H.
Control modes: CONTROL + INFRARED
Impact Protection (IK) : IK08
Warranty Years: 3
Range (m): 10 m.
Time-Delay: Max 20H. - 50% 40H.

Product short description:

The **SUNLIGHTPRO200 GXTronic LED Solar Street Light** is the ideal solution for efficient lighting of all types of roads, with no grid connection needed. Equipped with a **SMD5050 LED (160 lm/W)**, a **25 W monocrystalline solar panel**, and a powerful **20,000 mAh lithium battery (3.2 V)**, it **automatically turns on at dusk and off at dawn**.

Its **70° × 140° asymmetric optics** ensure uniform light distribution (6500 K), while the **included remote control** enables programming various operating modes. An **autonomous, intelligent, and installation-ready luminaire** for streets, pathways, parks, and off-grid locations.

Product description:

SUNLIGHT PRO200 LED Solar Street Light | SMD5050 160 Lm/W | Remote Control | 70°×140° | IP65

The **SUNLIGHT PRO LED Solar Street Light by GXTronic** is a next-generation luminance solution, engineered to provide an **autonomous, eco-friendly and highly efficient public lighting option**. Constructed in aluminum, it is ideal for **urban roads, rural paths, parks, residential areas, pedestrian walkways and locations without grid access**.

This model integrates advanced technology and premium components to optimize **light output, durability and energy savings**.

Key technical features:

- **Light source:** High-efficiency SMD5050 LED delivering **160 lm/W** for powerful, uniform illumination.
- **Color temperature:** 6500 K, cool white light ideal for outdoor visibility.
- **Beam angle:** Asymmetric optics 70° × 140° for improved light distribution over roads and sidewalks.
- **Battery:** **LiFePO₄ Lithium**, 3.2 V, 20,000 mAh – long-lasting and deep-cycle resistant.
- **Solar panel:** Monocrystalline 6 V / 25 W high-efficiency module, capable of capturing peak solar energy even on cloudy days. Dimensions: 400 × 350 × 16 mm.
- **Automatic on/off:** Intelligent ambient light detection activates at dusk and shuts off at dawn, no manual action required.

The **SUNLIGHT PRO** lamp can be installed on either **wall or pole**, adapting to various infrastructure needs:

- **Wall mounting:** uses a metal support arm fixed with expansion bolts.
- **Pole mounting:** same arm easily attaches to standard poles for optimal height and light spread.

Remote control included: Allows programming of multiple operational modes, intensity levels and custom schedules as needed.

Remote control functions:

- **ON / OFF:** manually switch the lamp on or off.

Technical Datasheet

- **AUTO:** smart automatic mode:
 - 100 % brightness at activation
 - 70 % for 3 hours
 - then 30 % until dawn
- **Full Power:** lamp runs at 100 % intensity continuously.
- **Half Bright:** lamp at 50 % intensity to save energy.
- **Enhance Brightness:** manually increase brightness level.
- **Dim:** manually reduce brightness.
- **3H, 5H, 8H Modes:** lamp stays on for 3, 5 or 8 hours continuously, then automatically turns off.

Product advantages:

- **100 % autonomous:** requires no electrical grid connection, reducing installation and consumption costs.
- **Easy installation:** wall or pole mounting via metal support arm – ideal for urban and rural projects.
- **Outdoor durability:** aluminum housing with **IP65** protection, resistant to dust, rain and harsh weather.
- **Sustainable and efficient:** minimizes energy use and carbon emissions.

Recommended applications:

- Streets and roadways
- Residential streets and private driveways
- Parks, gardens and plazas
- Industrial and rural areas
- Temporary installations or off-grid locations

At FactorLED we ensure that our products have a **QUALITY** guarantee and offer all the necessary elements for **DISTRIBUTION**, **IMPORT** or **WHOLESALE**, including the technical data sheet of each LED product.
