

Hippo Connector with Cable for LED Strips 24V RGB+CCT SMD | IP20 | 6 Pins | 10mm

Product code:

Reference: SPRGBCCT-10MM

Technical specifications:

REFERENCE: SPRGBCCT-10MM
Construction Material: PC
Certifications: CE, CMIM, RoHS
IP : IP20
Dimensions (mm): 10mm
Other Information:
Warranty Years: 3
Units per masterbox: 100

Product short description:

Hippo quick connector with 6-pin cable for connecting 10mm wide SMD RGB+CCT LED strips to the controller. IP20 design, practical and safe: just press and connect. Includes cable, ensuring an easy, fast and hassle-free installation. Compatible with REF: SP216D-RGBCCT-91353. Optimize your lighting in seconds!

Product description:

Hippo Connector with Cable for 24V RGB+CCT LED Strips | IP20 | 6 Pins | 10mm

Optimize your LED lighting installations with this practical Hippo connector with 16 cm cable, specially designed for 10mm wide SMD RGB+CCT LED strips.

Solderless installation: Forget about soldering and specialized tools. With its click system, you'll have a secure and fast connection in seconds.

Transparent design: Allows easy verification of proper cable placement and ensures stable, efficient current transmission.

Easy to use: Open the connector, insert the LED strip into the slot and press the clips to secure it. Done, no hassle!

Guaranteed compatibility: Ideal for 24V RGB+CCT LED strips with 10mm PCB. Compatible with our model REF: SP216D-RGBCCT-91353.

With this Hippo connector, you'll get a clean, fast and secure installation, optimizing your lighting in seconds.

Applications:

- LED lighting installations in homes, offices, shops and decorative projects.
- DIY lighting projects without soldering knowledge.
- Quick replacement of connections in existing LED lighting systems.
