LED tube connector 220V - T8 - 120Cm

Product code:

Reference: 2737

Technical specifications:

REFERENCE: 2737
Construction Material: Flame retardant thermoplastic
Certifications: CE - ROHS
IP : IP20
Dimensions (mm): L1200mm
Warranty Years: 2

Product short description:

Are you looking for a high-quality cable connector for your T8 LED tube? This 220V LED tube cable connector is the perfect solution for quickly and safely connecting your LED tube. With its easy-to-use design, you'll be able to install your LED tube without the need for special tools or advanced technical knowledge. Additionally, its construction ensures a stable and secure connection for your LED tube. Make the installation of your LED tube easy and hassle-free with this 220V T8 LED tube cable connector!

Product description:

Cable connector for LED tube with a length of 120cm which allows a quick installation.

This 220V LED tube cable connector is the perfect complement to any LED lighting installation. It is ideal for standard T8 type tubes and features a 120cm long cable, providing the flexibility needed to adapt to any project.

One of the main advantages of this LED tube cable connector is its ease of use. It is a quick and easy connector that does not require special tools or advanced technical knowledge for installation. Its intuitive design allows anyone to connect their LED tubes safely and easily, making it an ideal solution for anyone looking for a fast and efficient alternative.

Another advantage of this LED tube cable connector is its quality. It is built with high-quality materials, ensuring a stable and secure connection for your LED tubes. This translates into constant and high-quality lighting without interruptions or connection failures.

In addition, its sleek and discreet design makes this LED tube cable connector the perfect choice for any lighting installation. It fits perfectly with any interior design and is practically invisible once installed, making it an aesthetic and functional solution.

In summary, this 220V LED tube cable connector is an ideal choice for anyone looking for a quick, easy, and efficient solution to connect their standard T8 LED tubes. With its ease of use, quality construction, and elegant design, it is a perfect option for any indoor lighting installation.
